

**Fishers Services Limited
UK Gender Pay Gap
Report 2018**

Gender Pay Gap in Hourly rate

As part of the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017, Fishers are required to report on specific figures on the Gender Pay Gap as the organisation has more than 250 employees. The gender pay gap is calculated as being the difference between the average earnings of men and women, expressed relative to men's earnings. Figures are calculated using a specific reference date each year, known as the Snap-shot date. The data for calculating the hourly rate pay gap and quartile analysis in this report is taken from the pay period snap-shot date of 5 April 2018.

Hourly Pay Rate

8.39% Lower

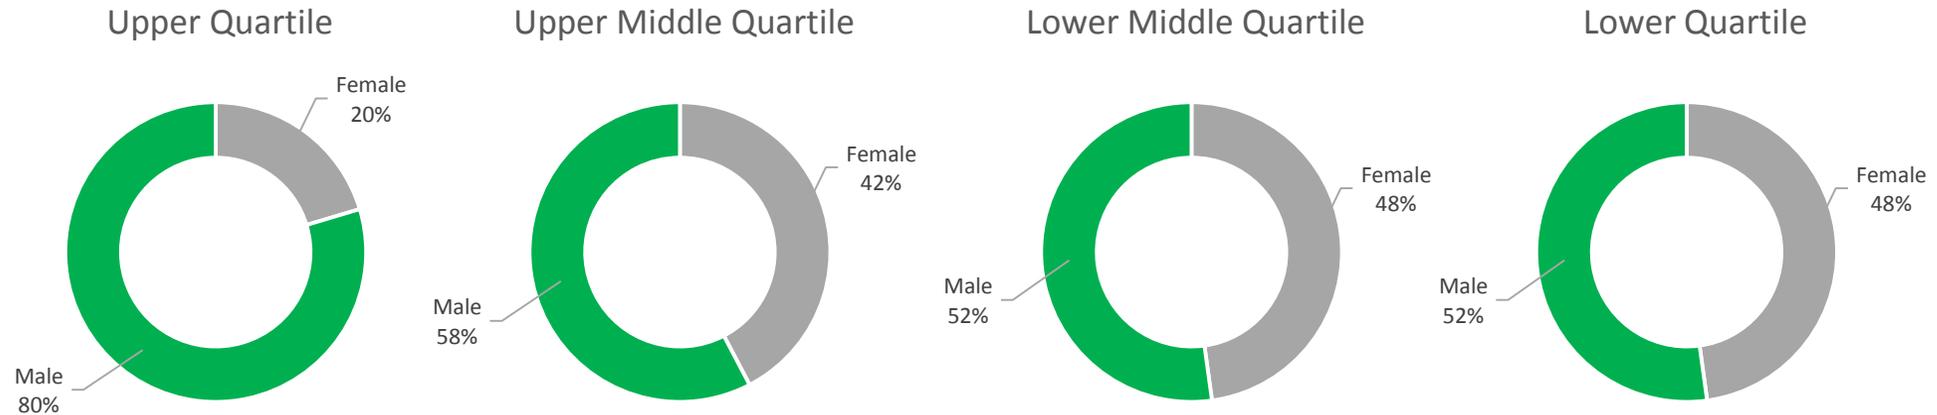

(mean)

0.0% Lower

(median)

Our Gender Pay Gap is less than the UK average of 18.1%

Distribution of Employees Across Pay Quartiles

The charts above show the distribution of gender over the four quartiles on the company, split by pay grade.

The lower proportion of females in the upper quartile is predominantly due to a dominance of male employees in Engineering and HGV Driver roles.

Bonus Pay

Women's bonus pay is

80.93% Lower
(mean)

92.00% Lower
(median)

With the proportion of those receiving bonuses as followed:

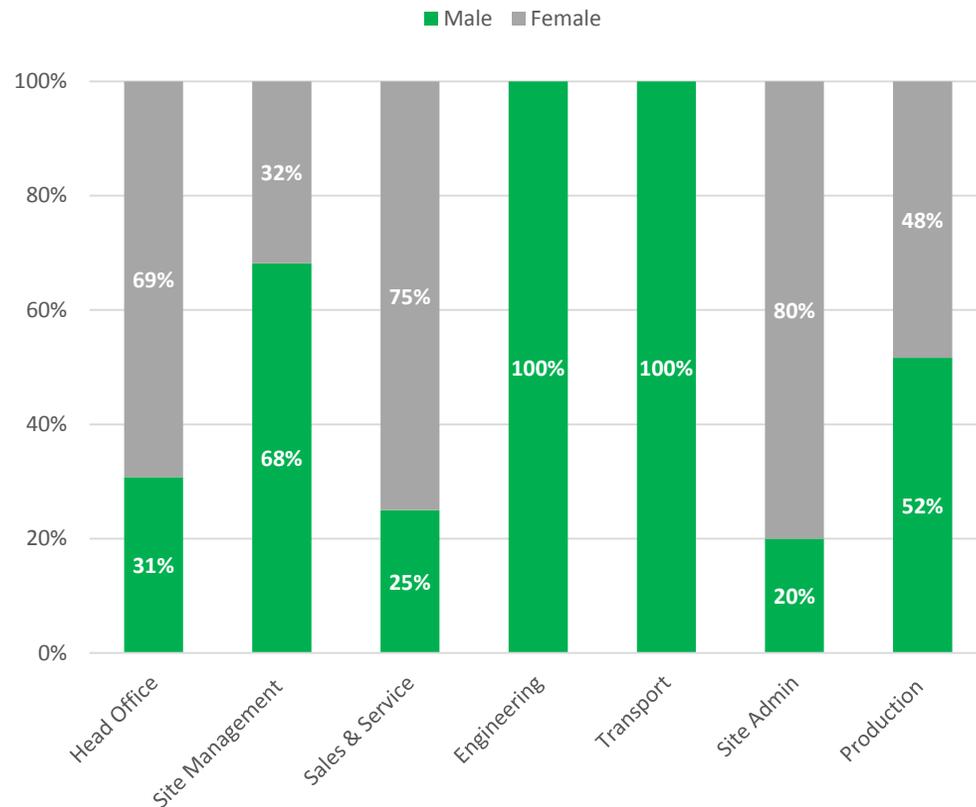

3.13% of Women

0.26% of Men

This information is based on the 12 months proceeding 5 April 2018.

Bonus pay includes sales commission paid on new business during the year.

Departmental Analysis

In order to show where the variations in Fishers Gender Pay gap arise we have provided a breakdown of the distribution of males and females in each department.

As shown, all of our employees in engineering and transport are male. The number of women in these professions are significantly less than the number of men therefore we are restricted when recruiting new employees.

At Fisher's we are committed to supporting and developing a diverse workforce in order to continue to grow our business.
